

Exhibit: Overview of each index and list of top weighted stocks

Index name	JPX/FactSet Japan 100-Year Index	JPX/FactSet Japan Regional Economies Index	JPX/FactSet Japan ASEAN-Leaders Index																																																																																																																																				
Selection Method	Among domestic stocks and REITs listed on the Tokyo Stock Exchange, selected from those with a certain degree of liquidity are those in industries related to healthcare/medical technology, wealth management, leisure, fitness/beauty, etc. (Use RBICS Level 6).	Of the domestic stocks listed on the Tokyo Stock Exchange, 100 stocks with high rates of return in Japan and high rates of return in the areas where the head office is located outside 1 capital and 3 prefectures (Tokyo, Kanagawa, Saitama, Chiba) are selected.	From among the domestic stocks listed on the TSE that have a certain degree of liquidity, the top 100 stocks were selected by scoring the top stocks based on the ratio of subsidiaries in the ASEAN region and the high profitability by region in the ASEAN region.																																																																																																																																				
Number of stocks	65	100	95																																																																																																																																				
Calculation Method	Float Adjusted Market Cap Weighted (8% Cap on rebalance)	Float Adjusted Market Cap Weighted (8% Cap on rebalance)	Float Adjusted Market Cap Weighted (8% Cap on rebalance)																																																																																																																																				
Constituent stock	As of March 19 th , 2021	As of March 19 th , 2021	As of March 19 th , 2021
